### **About the Accreditation Decisions**

“Accreditation Renewed” refers to previously accredited programs that have achieved accreditation again. Those renewed for two years are accredited with conditions. If they meet conditions within two years, they will be granted full accreditation – for a total of a seven year accreditation period.

“Accreditation Granted” refers to programs that have achieved accreditation for the first time. Those accredited for two years are accredited with conditions. If they meet conditions within two years, they will be granted full accreditation – for a total of a seven year accreditation period.

“Accreditation Continued” refers to programs that were “Accredited with Conditions” or “Accredited with Probation” that have satisfactorily met their conditions or terms of probation.

“Accreditation Expired” indicates either that a program was found not to have met conditions or terms of probation after their second annual report.

Programs may be accredited for a maximum of a seven-year term. Programs with a shorter accreditation term have met the standards but are “accredited with conditions” related to the program’s ability to collect and/or use data aligned with one or more standards. Strengths in these programs indicate the programs’ capacity to address the concerns within two annual report cycles.
