#### **About the Accreditation Decisions**

"Accreditation Granted" refers to programs that have achieved accreditation for the first time. Those accredited with conditions are initially accredited for two years. Strengths in these programs indicate the programs' capacity to address identified concerns within two annual report cycles. If they meet the conditions within two years, they will be granted continued accreditation for the remainder of a total seven year accreditation period.

"Accreditation Renewed" refers to previously accredited programs that have achieved accreditation again. Those renewed with conditions are initially renewed for two years. Strengths in these programs indicate the programs' capacity to address identified concerns within two annual report cycles. If they meet the conditions within two years, they will be granted continued accreditation for the remainder of a total seven year accreditation period.

"Accreditation Continued" refers to programs that were "Accredited with Conditions" or "Accredited with Probation" that have satisfactorily met their conditions or terms of probation.

"Accreditation Expired" indicates that a program was found not to have met either their conditions or their terms of probation within two annual reports.
